#### DETAILED ACTION

### Response to Amendment

- 1. This Office action is in response to the amendment dated September 15, 2003, paper no. 5. Claims 1, 2, 5, 7-11, 13, 18, 19, and 21 were amended. Claims 1-21 are pending.
- 2. The objections set forth in paper no. 4 (mailed June 20, 2003), paragraphs 1-3 are withdrawn due to the amendment.
- The rejection of claim 13 under 35 USC 103(a) as being unpatentable over
   Hatwar (US 2003/0068524) in view of Fukuoka (US 2002/0168544) is withdrawn.
- 4. The rejection of claims 1, 8, 10, 12, 14, 15, 17, and 18 under 35 USC 102(e) as being anticipated by Hatwar (US 2003/0068524) set forth in paper no. 4, paragraph 6 is maintained.
- 5. The rejection of claim 6 under 35 USC 103(a) as being unpatentable over Hatwar (US 2003/0068524) set forth in paper no. 4, par. 8, is maintained.
- 6. The rejection of claim 9 under 35 USC 103(a) as being unpatentable over Hatwar (US 2003/0068524) in view of Fukuoka (US 2002/0168544) is maintained.
- 7. The rejection of claim 11 under 35 USC 103(a) as being unpatentable over Hatwar (US 2003/0068524) in view of Howard et al. (US 2002/0021088) is maintained.
- The rejection of claim 16 under 35 USC 103(a) as being unpatentable over
   Hatwar (US 2003/0068524) in view of Mishima (US 2001/0053462) is maintained.

## Allowable Subject Matter

Page 3

Application/Control Number: 09/993,682

Art Unit: 1774

9. Claims 2-5 and 19-21 are allowed and claim 7 remains objected to as being dependent upon a rejected base claim for the reasons given in paper no. 4, par. 12. Claim 13 is also objected to as being dependent upon as rejected base claim. The closest prior art, Hatwar et al. discussed in the previous Office action, fails to teach or to render obvious the very specific luminescent layer materials of present claim 13.

## Response to Arguments

10. Applicant's arguments filed September 15, 2003 have been fully considered but they are not persuasive. Applicant argues the following with regard to the amendment of independent claims 1 and 18:

"As each newly-amended independent Claim 1 and 18 also now more clearly recites, a 'blue' third light 'different in color from said second light is emitted by said luminescent layer when the device is applied with a bias voltage.' The full combination of these and other features now more clearly recited by Applicants' pending Claims are nowhere disclosed by the cited references. Note, for instance, that the primarily-cited Hatwar reference prescribes each of its colors to be emitted via a particular dopant. Hatwar prescribes its blue light in particular to be emitted by such a dopant rather than being 'emitted by said luminescent layer' itself, as each of Applicants' Claims 1 and 18 now more clearly recites."

The examiner respectfully submits that the Hatwar blue light-emitting layer clearly reads upon the luminescent layer required to emit blue light as recited in claims 1 and 18.

Applicant has not required that the <u>luminescent host material</u> emits blue light, but rather the <u>luminescent layer</u> emits blue light. Hatwar clear states there is a doped, light emitting layer that in its entirety emits blue light (see abstract). Adjacent the Hatwar blue light emitting layer is an electron transport layer doped with a yellow emitting dopant (see abstract). The disclosure by Hatwar fulfills all the requirements of the present claims. The luminescent layer emits blue light and the electron transport layer

Application/Control Number: 09/993,682

Art Unit: 1774

is doped with a yellow emitting compound (per the "second dopant"). The yellow color is different to the blue color of the luminescent layer. The rejections over Hatwar et al. and the further applied secondary references are respectfully maintained for the reasons of record.

#### Conclusion

11. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

12. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dawn Garrett whose telephone number is (703) 305-0788. The examiner can normally be reached Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cynthia Kelly can be reached at (703) 308-0449. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9310.
